Profile

Full-Stack Software Developer with hands-on experience building web applications, APIs, automation workflows, and AI-assisted systems. Experienced with JavaScript, TypeScript, React, Node.js, SQL, and modern AI development tools. Passionate about exploring how AI can improve products, workflows, and developer productivity, with a strong interest in cloud technologies and scalable software engineering.

Technical Skills

Languages: JavaScript, Typescript, Python, SQL

Frontend: React, HTML, CSS

Backend: Node.js, Express.js, Django REST Framework, REST APIs, JWT authentication

Databases: PostgreSQL, MySQL

AI & Automation: AI-assisted development, AI coding agents (Claude Code, ChatGPT), prompt engineering, workflow automation, Make.com, structured AI workflows

Tools: Git, GitHub, Docker (basic), CI/CD concepts, cloud fundamentals (Azure/AWS)

Experience

Freelance Web Developer (SEO & Web Projects) | Copenhagen, Denmark | May 2025 – Present

- Built and maintained web projects with custom features, backend logic, and structured content systems
- Developed backend logic, APIs, and content workflows
- Managed deployments, updates, and version control

AI-Powered / Programmatic SEO Intern | Copenhagen, Denmark | Jan 2026 – Mar 2026

- Built AI-assisted workflows using Make.com, structured datasets, prompts, and CMS integrations.
- Designed and optimized repeatable automation processes to improve productivity and content generation.
- Tested outputs, refined prompts, and improved reliability through iterative experimentation.

Sales Coordinator | Nordic Computer, Aalborg, Denmark | May 2022 – May 2024

- Improved internal workflows and reporting processes
- Analyzed pricing and sales data
- Coordinated orders and daily operations

Selected Projects

ShowFreak – Full Stack Recommendation Platform (Full-Stack) - [LIVE DEMO](#) - [Github](#)

- Built with React, TypeScript, Node.js, PostgreSQL, and Prisma
- Includes JWT auth, API integrations, and personalized recommendations
- Used AI-assisted development workflows and coding agents to accelerate implementation, debugging, and feature delivery.

Trello-Style Task Management Platform - [LIVE DEMO](#) - [Github](#)

- Built full stack app using React, Node.js, SQL, and JWT authentication
- Designed REST APIs for boards, lists, and cards

Education

Python Developer Bootcamp | Berlin Technological Academy | 2023 – 2024

Focused curriculum on Python, Django REST, SQL, Git/GitHub, and Docker basics

Bachelor's Degree in Industrial Engineering | Universidad Adolfo Ibáñez, Chile | 2015 – 2020

Combined engineering principles with business management, building a foundation in systems thinking, analytical problem-solving, and operational decision-making.

Languages

Spanish (Native), English (Professional - C1), Italian (Fluent), Danish (Basic conversational)
